

# Cyres Cinergy: Features & benefits

## Cyres Cinergy delivers the ultimate goal – integrated Cervical Screening Data to enable end to end patient reporting

Now that so many Cytology Labs and Colposcopy Clinics have Cyres reporting software installed, it has become possible for Cyres to offer Cyres Cinergy.

Cyres Cinergy provides:

- centralised data in a standardised format
- online access to patients through additional level of drill down
- full end-to-end patient histories in chronological date order across all disciplines
- additional reports and functionality for both Cytology Labs and Colposcopy Clinics

Cyres Cinergy delivers the following benefits:

- huge time savings
- no more telephoning to trace patient histories
- improved follow up routines
- improved failsafe routines

Cyres Cinergy is online and running within the Eastern Region whilst Cyres discusses implementation with a number of other regions.
